WHY WEE CAMP

GOAL

The goal of the Workplace Experience Exchange Camp is to provide experiences for educators to learn through direct, hands-on experience about trends, skill requirements, and opportunities in Central Louisiana.

APPROACH

Each summer in Central Louisiana, a select group of public school educators attend a one-week sneak peek into the region's high-demand, high-wage jobs. Through talks and tours coordinated by The Orchard Foundation, educators are immersed in the worlds that their students will enter one day as credentialed and degreed workers. WEE Camp is often the first time that educators step into the workplace and learn about the careers and work environments that their students will encounter. The aim is to cultivate a broader, global mindset among educators that they can instill in their students.

WEE Camp also connects them to real-world workforce trends and requirements. At camp, cohorts of educators are hosted by local employers, touring different employer sites and learning about what it takes to be successful in each workplace. Company representatives share their industry's trends and their workforce needs, and then drill down into what sorts of skills and characteristics they are seeking in future employees. On the jobsite, the educators study the competencies that their students will need to thrive in those jobs.

OUTCOMES

Educators leave WEE Camp with first-hand knowledge of the workforce issues facing employers in Central Louisiana. They emerge with the confidence that they can tailor their classroom practice to incorporate the new knowledge they acquired. They are better equipped to teach their students to build new proficiencies, not only in content, but also in skills such as problem-solving, leadership, and collaboration with an emphasis on real-world applications.

PARTICIPATING SCHOOLS

AVOUELLES

Bunkie Magnet Middle School
Louisiana School for Agriculture Science

GRANT

Grant High School

LASALLE

Jena High School

RAPIDES

Alexandria Middle Magnet School
Arthur F. Smith Middle Magnet
Northwood High School
Peabody Magnet High School
Pineville Junior High
Scott M. Brame Middle School

WINN

Winnfield Middle School

HISTORY

In its 11th year, WEE Camp - Central Louisiana's first industry externship program - has served 419 educators in Cenla.

WEE CAMP I Starts

In 2015, WEE Camp was established by The Orchard Foundation, serving nine parishes. It has since expanded into multiple events with increased engagement by partners.

WEE CAMP II Emerges

In 2016, WEE Camp II was born to offer educators a more in-depth experience with a smaller number of industry partners.

VEE Camp (Virtual)

In 2017, The Orchard Foundation developed and implemented VEE Camp in partnership with the LA Department of Education. VEE Camp provided a model for statewide implementation. When COVID precautions caused WEE Camp to go virtual, the virtual model was utilized again.

WEE Camp Elementary

In 2022, WEE Camp added a novel option for K-6 educators. WEE Camp Elementary, the newest iteration of WEE Camp, launched with 20 educators from 11 schools.

HOW WE DO IT

INDUSTRY PARTNERSHIPS

This year, WEE Camp I educators were connected to 13 regional employers. From manufacturing to healthcare, to military and the energy industry, many of Cenla's key industries were represented.

EDUCATORS

25 middle and high school educators were accepted to WEE Camp I, representing 12 public schools in 5 school districts.

COLLABORATION

Educators forge connections with industry and gain practical knowledge of the workplace. They bring their real-world experiences back into classrooms for the benefit of the students.

WEE IMPACT ON EDUCATORS

Connections to
classroom subject matter

Increased awareness of
employer requirements

Identified ways to incorporate
skill requirements into classroom

Increased awareness of
programs and jobs in region

*Results from post-WEE Camp satisfaction surveys of educators

WEE CAMP FEEDBACK

The [WEE] camp was very insightful in informing educators of the skills we need to hone in on more so within the classroom.

I had NO IDEA about some of the manufacturing career opportunities in CENLA!

The program is awesome and so informational in this society where the education system is striving to help students make the transition from high school to college and/or careers.

The camp allows you to see and view jobs from a different perspective which helps understand the workforce more in depth.

Thank you so much for allowing me to share in this experience. It was captivating learning the various opportunities offered right here in Alexandria.

INDUSTRY PARTNERS

Thank You

for your invaluable partnership in the success of WEE Camp!

*Your support in welcoming Central Louisiana educators
into your workplace strengthens the link between education & industry -
creating meaningful connections that promote
student growth & workforce readiness.*
